

The Missing Link

Eppendorf Tubes® 5.0 mL—Discover a new sample handling system

Combined with the comprehensive line of accessories, Eppendorf Tubes® 5.0 mL are the perfect option for working with medium-sized sample volumes!

Eppendorf Tubes® 5.0 mL

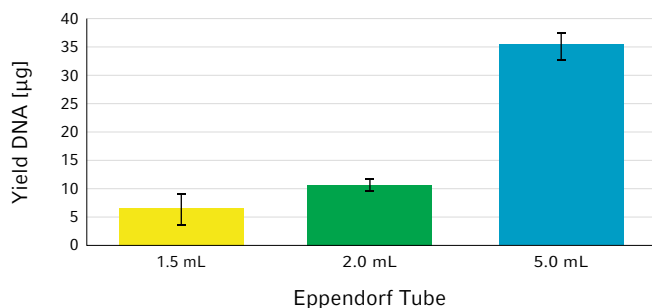

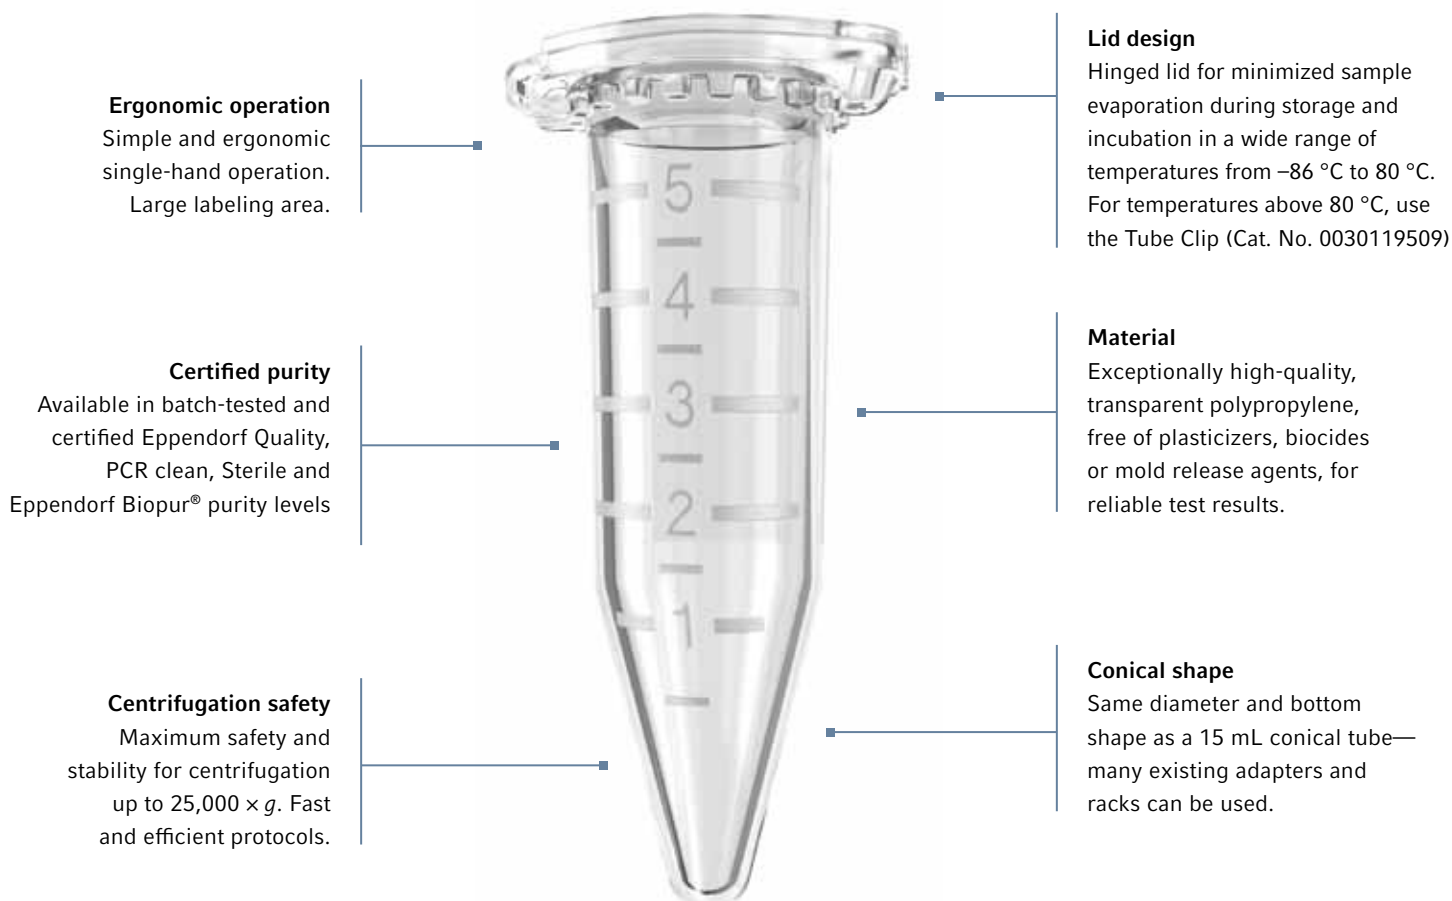

Fig. 1: Higher yields in DNA isolation—plasmid DNA yields can be significantly increased with low-copy plasmids by increasing the culture volume to 5 mL. The Eppendorf Tube 5.0 mL allows to conduct DNA purification safely and contamination-free, without dividing samples among several smaller tubes. For additional information and a description of the protocol, see Application Note no. 262.

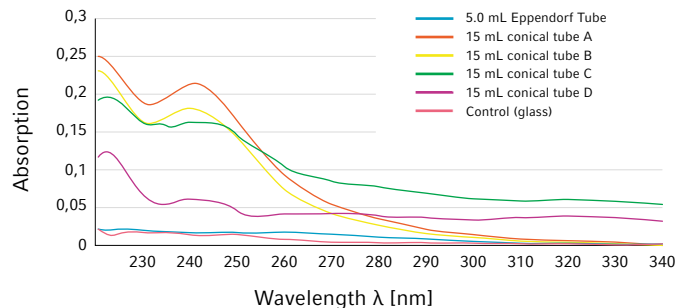

Fig. 2: Minimization of leachables—conical 15 mL screw cap tubes, often used in the medium volume range, show contamination from leaching substances which absorb in the UV range and can thereby disrupt DNA and protein quantifications. The Eppendorf Tube 5.0 mL offers a safe alternative for sample preparation and storage. For additional information and a description of the protocol, see Application Note no. 264.

Intelligent and simple—systematically!

Comprehensive line of accessories:

Of course, the Eppendorf system concept is the focus for the new Eppendorf Tubes® 5.0 mL. All lab procedures can continue to be executed—simple, practical and cost-effective.

Eppendorf offers a sophisticated range of matching accessories. Efficient and simple pipetting, gentle mixing, incubating, safe centrifugation, automatic pipetting and storage down to -86°C . All works perfectly with Eppendorf Tubes 5.0 mL.

The tube's conical shape is designed to be compatible with most accessories for common conical 15 mL tubes. This allows you to continue using many of your existing adapters and racks!

Accessories:

- > Matching high-speed rotors for Eppendorf Centrifuges 5430/R, 5427 R, 5804/R and 5810/R
- > 5.0 mL adapters and inserts for all existing Eppendorf rotors, with bore holes for 15 mL or 50 mL tubes
- > Functional rack for bench work
- > Storage boxes for freezers
- > 5.0 mL thermoblocks for Eppendorf ThermoMixer™ C, Thermomixer® comfort, ThermoStat C and ThermoStat plus
- > 5.0 mL Reservoir Rack Module for the automated pipetting system epMotion®

Perfect mixing, heating and cooling with the ThermoMixer C

Safe centrifugation with Eppendorf Centrifuges

Optimized adapters for existing swing-bucket and fixed-angle rotors

The ideal solution for sample preparation and storage: new racks and storage boxes

Precise one-step pipetting with Eppendorf pipettes and epT.I.P.S.® 5.0 mL

Easy integration in the epMotion automated pipetting system

Discover the missing link— Eppendorf Tubes® 5.0 mL

Eppendorf created the Eppendorf tube 50 years ago and triggered an evolution of microtubes! Since then, Eppendorf tubes have been used throughout the world every day. Eppendorf Tubes represent the peak of development and are today a definitive standard in sample processing from 0.5 to 2.0 mL.

Conical screw cap tubes (15 mL and 50 mL) are available for large volumes. With medium sample volumes you may face an issue: they need to be processed with large conical screw cap tubes—impractical, inconvenient and often prone to contamination.

Eppendorf now offers the »missing link«: the Eppendorf Tube 5.0 mL. This product fills the gap between existing tube versions and enables the simple and safe processing of sample volumes up to 5.0 mL.

Application benefits:

- > Easier processing of samples up to 5.0 mL
- > Higher yields in DNA isolation, especially with samples with limited quantity of source material
- > Convenient and contamination-free cell culture applications
- > Easier sample access lowers the risk of contamination
- > Preparation of mastermixes and buffers
- > Less storage space needed
- > Safe cell and tissue lysis

Ordering information

Description	Catalog No.
Eppendorf Tube® 5.0 mL , Eppendorf Quality™, 200 tubes (2 bags of 100 tubes)	0030119401
Eppendorf Tube® 5.0 mL , PCR clean ¹ , 200 tubes (2 bags of 100 tubes)	0030119460
Eppendorf Tube® 5.0 mL , Sterile ² , 200 tubes (10 bags of 20 tubes)	0030119487
Eppendorf Tube® 5.0 mL , Eppendorf Biopur ³ , 50 tubes (individually wrapped)	0030119479
Eppendorf Protein LoBind Tube 5.0 mL , PCR clean ¹ , 100 tubes (2 bags of 50 tubes)	0030108302
Eppendorf DNA LoBind Tube 5.0 mL , PCR clean ¹ , 200 tubes (4 bags of 50 tubes)	0030108310
Eppendorf Tube® 5.0 mL Cell culture package , 400 tubes in Sterile ² purity (20 bags of 20 tubes), 2 Tube Racks, 1 Research plus 5.0 pipette, 1 Pipette holder for wall mounting, 2 ep Dualfilter T.I.P.S.® 0.1–5.0 mL in PCR clean ¹ and Sterile ² purity	022365001
Accessories for general use	
Eppendorf Tube® 5.0 mL Starter Pack , 400 tubes in PCR clean ¹ purity (4 bags of 100 tubes), 2 Tube Racks, 8 Universal inserts	0030119380
Tube Rack for 16 x 5.0 mL, also suitable for 15 mL conical screw cap tubes, white, 2 pcs.	0030119495
Storage Box for 25 x 5.0 mL, polypropylene, with lid and alphanumeric code, suitable for -86°C storage, height 65 mm, 2 pcs. (blue and red)	0030127943
Tube Clip for Eppendorf Tubes® 5.0 mL, 10 pcs.	0030119509
Accessories for Liquid Handling	
Eppendorf Research plus 5.0 mL , single-channel pipette, 0.5-5.0 mL, Violet	3120000070
Eppendorf Xplorer 5.0 mL , single-channel electronic pipette, 0.25-5.0 mL, Violet	4861000058
epT.I.P.S. 0.1-5.0 mL , Eppendorf Quality, 500 tips (5 bags of 100 tips)	022492080
epT.I.P.S. 0.1-5.0 mL , Eppendorf Quality, 1 reusable box with 24 tips	022491385
ep Dualfilter T.I.P.S. 0.1-5.0 mL , PCR clean ¹ and Sterile ² , 120 tips (5 racks of 24 tips)	022491261
Eppendorf Reservoir Rack Module TC 4 x 5.0 mL , for use in epMotion®	5075799340
Accessories for Centrifuges	
Universal insert , for use of Eppendorf Tube 5.0 mL in centrifuge rotors and adapters with 15 mL conical bore holes, set of 8 pcs.	5820732008
Universal adapter 1 x 5.0 mL , for rotors with 50 mL conical bore hole, set of 2 pcs.	5820730005
Universal adapter 1 x 5.0 mL , for rotors with 100 mL round bore hole, set of 2 pcs.	5804777000
Eppendorf adapter 1 x 5.0 mL , for 6 x 15/50 mL rotor (F-35-6-30), Centrifuge 5430/5430 R, sm. bore, 2 pcs.	5427746005
Eppendorf adapter 1 x 5.0 mL , for 6 x 15/50 mL rotor (F-35-6-30), Centrifuge 5430/5430 R, lg. bore, 2 pcs.	5427747001
Eppendorf adapter 1 x 5.0 mL , for 4 x 100 mL rotor (A-4-38), Centrifuge 5702/5702 R/5702 RH, 2 pcs.	5702733008
Eppendorf adapter 8 x 5.0 mL , for 4 x 250 mL rotor (S-4-72), Centrifuge 5804/5804 R/5810/5810 R, 2 pcs.	5804793005
Eppendorf adapter 14 x 5.0 mL , for 4 x 750 mL rotor (S-4-104), Centrifuge 5810/5810 R, set of 2 pcs.	5825739000
Eppendorf rotor 12 x 5.0 mL for Centrifuge 5427 R (FA-45-12-17) , max. 20,600 x g, with aerosol-tight Eppendorf QuickLock® lid	5409700006
Eppendorf rotor 16 x 5.0 mL for Centrifuge 5430/5430 R (FA-45-16-17)⁴ , max. 21,191 x g, with aerosol-tight QuickLock® lid	5427750002
Eppendorf rotor 20 x 5.0 mL for Centrifuge 5804/5804 R and 5810/5810 R (FA-45-20-17)⁵ , max. 20,913 x g, with aerosol-tight Eppendorf QuickLock® lid	5820765003
Accessories for Eppendorf Thermomixer and ThermoStat	
Eppendorf Thermoblock 8 x 5.0 mL , for Eppendorf Thermomixer R and ThermoStat plus	5309000333
Eppendorf SmartBlock™ 8 x 5.0 mL , for Eppendorf ThermoMixer™ C and ThermoStat C	5309000007

¹ PCR clean: Batch-certified free from DNA, DNase, RNase, and PCR inhibitors. ² Sterile: Batch-certified sterile and free from pyrogens/endotoxins. ³ Biopur: Batch-certified sterile and free from DNA, DNase, RNase, PCR inhibitors, ATP and pyrogens/endotoxins. ⁴ Please note that a software upgrade is necessary to use this rotor in 5430/5430 R with serial numbers <16,000. This rotor cannot be used in 5430 (non-refrigerated) centrifuges with serial numbers below 10,000. ⁵ Please note that rotor FA-45-20-17 can be used for 120 V models starting with serial numbers: 5804 (≥62,247), 5804 R (≥63,063), 5810 (≥62,206), 5810 R (≥66,386). If you own a unit with an older serial number a software upgrade will be necessary. Please contact Eppendorf Customer Support at 800-645-3050 to learn about your options.
